

# Welcome to our Annual General Meeting

The right care at the right time, in the right place for local people

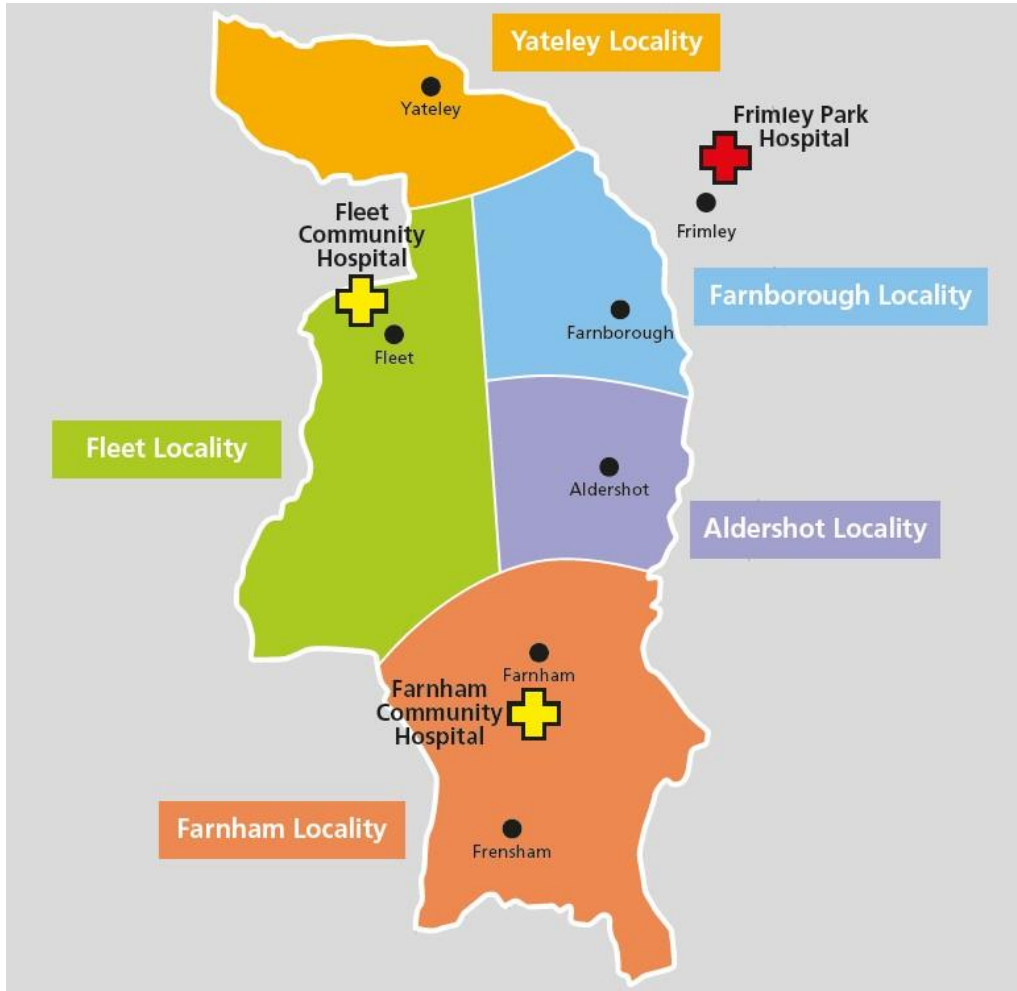

## Thank you for joining

After so long apart it would be lovely to see you all, so we hope you'll keep your cameras on.

We understand, however, if you would prefer to keep your camera off.

The right care at the right time, in the right place for local people

## About us

We plan and fund the majority of the health services provided to the 235,000 people of North East Hampshire and Farnham.

We want to support local people to be as happy, healthy and independent as they can be, and that if they should have to call on health services, those services should be delivered in the right place and at the right time to meet people's needs.

To do this we work closely with many partners and stakeholders, including NHS, local authority, public, private and community and voluntary sectors.

# Meet the team

**Dr Andy Brooks**

Finance, Frimley  
Collaborative

# Any questions?

Use the chat function to ask us anything and we'll give you an answer at the end of the event.

If there's not enough time to get to all the questions, we'll put all questions and answers on our website in the coming days.
